

CR-SSPC8

- ▶ **15 Amp Output Current** - 15 amp maximum current capacity with incorporated 15 amp thermal circuit breaker.
- ▶ **Voltage Protection** - Extreme Voltage Shutdown (EVS) circuitry safely powers down itself and connected equipment during unsafe voltage periods.
- ▶ **Safe sequenced power on/off operations** via the push of a button, providing the highest level of surge & spike protection available.
- ▶ **User friendly** - Can be controlled by the third control system(through the RS-232, network, CR-NET) and the front panel.
- ▶ **Eight Total Outlets** - The CR-SSPC8 contains eight IEC C13 standard outlets, suitable for general cabinet power supply .
